# AtmosAware Real Time WiFi Enabled IAQ Monitoring System

# AtmosAware Remote WiFi Enabled Remote IAQ Sensor

AtmosAware Sensor

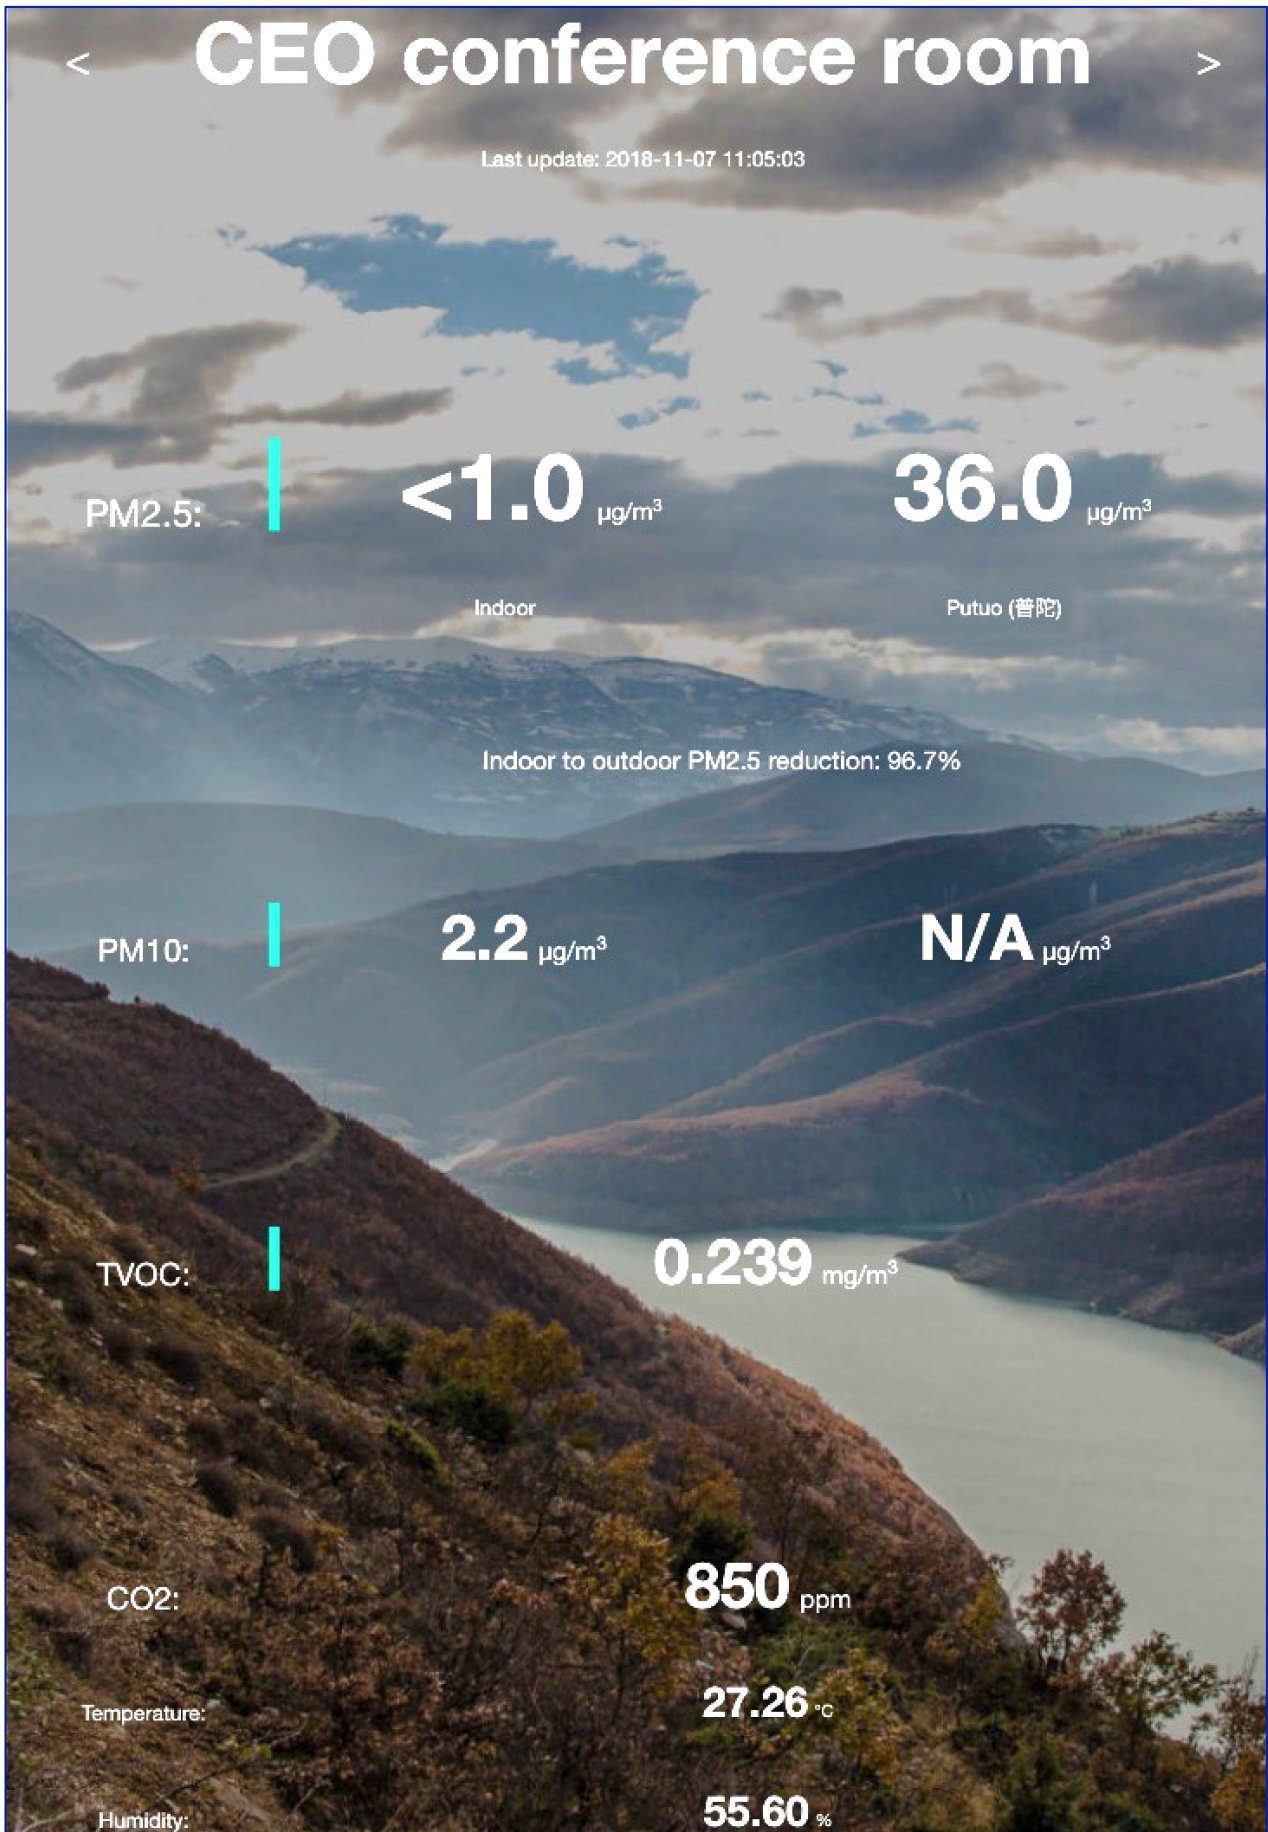

The AtmosAware System makes it simple to monitor your indoor air IAQ in real time on your mobile phone, tablet or laptop. It is WiFi enabled and backed up by cloud storage.

The AtmosAware System includes sensors, a web platform (subscription based) and a mobile app that enables you to check CO<sub>2</sub>, PM<sub>2.5</sub>, PM<sub>10</sub>, Total Volatile Organic Compounds (TVOC Levels), Temperature and Humidity on your mobile device of choice.

You can easily analyze the data on a daily, weekly or monthly basis and also view historical levels for comparison making report generation simple.

# AtmosAware WiFi Enabled Online Real-Time Data Display

Breathe crisp, clean, and visibly clearer  
“Mountain-Fresh” Indoor air again
