

Benefits of ProMedUSA+AtmosAir Bi-Polar Ionization Technology

- AtmosAir Bi-Polar Ionisation Actively and Continuously Disinfects and Decontaminates over 99.97% of Inhalable Airborne Viruses (including Covid-19), Bacteria, Germs from the indoor air that you breathe and the surfaces inside that space.
- Pathogens, especially COVID-19, are spread by tiny aerosol particles suspended in the air typically at breathing level. They are not sucked back into the AHU filtration system or into passive HEPA filters or killed by UV Lighting inside the ducts. Only AtmosAir actively destroys them in the space where you actually breathe and on the surfaces within that space.
- Haze, Dust, Smoke, Mould, PM10, PM2.5 PM0.3 Particles, Allergens are removed from the air you breathe leaving visibly cleaner air smelling “Swiss Mountain-Top Fresh”
- Odours and dangerous, toxic VOC's (Volatile Organic Compounds, including those from foods, cooking, body odours, paint, lacquer, adhesives are destroyed
- Significant Energy Savings are realized (often 15-30%)
- Proven and noticeable Improved Employee Productivity, Reduced Sickness and Absenteeism
- Virtually Zero Maintenance is required
